

A Roll of Honor Bank

National banks which have a surplus equal to their capital are known as "Roll of Honor Banks."

The First National Bank of Ontario is the only roll of honor bank in this section of Eastern Oregon.

We constantly strive to merit our place on the "Roll of Honor" by rendering our patrons superior, accommodating service and by confining our business to safe, legitimate banking.

LONG EXTENSION FOR INDUSTRIALS

Employers and Employees Notified
That no Workmen's Compensation
Payments Due for April
May or June.

The announcement by the industrial accident commission that employers and employees operating under the workmen's compensation law will be exempt from payment into the fund for the months of April, May and June comes at a most opportune time. It relieves Oregon industry from a burden during the readjustment period. The exemption is possible because of a surplus that accumulated in the fund during the past year. The exemption of this three-months' period will mean that no payments will have been made into the fund by employers and employees for seven of twelve months of the fiscal year ending June 30. The effect of these exempted months is to reduce the rate of payment made by employers upon their payrolls to five-twelfths of the base rate. The exemption just declared by the commission will relieve employers from the payment of approximately \$600,000.00 into the fund for the months of April, May and June, the commission having sufficient funds on hand to pay all claims during the period.

The recent legislature, at the suggestion of the commission, amended the compensation law, changing the method of exemption so as to provide an annual credit refund to employers instead of the monthly exemption system. Under the old law the employer had to have continuous payrolls to be entitled to the exemptions as they were declared, but under the new law the employer will be given credit at the end of the year for the proportion his payments into the fund bear to the entire amount.

Since the workmen's compensation law became effective in 1914, the industrial accident commission has received from all sources \$6,007,081 which it has disbursed in the course of business at an administrative expense of only 6.17 per cent, the balance being available for the payments of claims of workmen injured in Oregon industry. During the year 1918 there were 25,288 workmen injured in industry in the state, 182 of the accidents being fatal.

BIG THEATRICAL COMPANIES RESUME ROAD TOUR

Owing to the war conditions which have prevailed for the past two seasons it has been difficult to secure high class road shows. As a matter of fact many managers of traveling companies have been reluctant to venture on the road or to distant territories and have confined their operations to the larger cities of the east. Since the war is over now the public in general is clamoring for amusement and this is especially true of the west where diversion has so long been denied the theatre going public. Of course there has been and always will be plenty of moving pictures but they grow more or less tiresome as a steady diet to the public in general. A few of the producing companies have heeded the call and have taken to the road again.

The first of the better class attractions to play through this territory is the FRISCO FOLLY company featuring the inimitable comedian Duke Westcott. Special inducement was necessary to secure dates for this company on account of its size and the large amount of scenery and equipment carried. The company will play an engagement at the Dreamland Theatre April 27 and 28.
